

Beauty

Beauty is the ascription of a property or characteristic to an animal, idea, object, person or place that provides a perceptual experience of pleasure or satisfaction. Beauty is studied as part of aesthetics, culture, social psychology and sociology. An "ideal beauty" is an entity which is admired, or possesses features widely attributed to beauty in a particular culture, for perfection. Ugliness is the opposite of beauty. The experience of "beauty" often involves an interpretation of some entity as being in balance and harmony with nature, which may lead to feelings of attraction and emotional well-being. Because this can be a subjective experience, it is often said that "beauty is in the eye of the beholder." Often, given the observation that empirical observations of things

Nature is the most beautiful and attractive surrounding around us which make us happy and provide us natural environment to live healthy. Our nature provides us variety of beautiful flowers, attractive birds, animals, green plants, blue sky, land, running rivers, sea, forests, air, mountains, valleys, hills and many more things. Our God has created a beautiful nature for the healthy living of us. All the things we use for our living are the assets of nature which we should not spoil and damage.

We should not destroy the originality of the nature and should not imbalance the ecosystem cycle.

Our nature provides us beautiful environment to live and enjoy so it is our responsibility to keep it clean and away from all damage.

In the modern era, many selfish and bad activities of the human being have distured the nature to a great extent.
